-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 June 2001.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. Formal drawings submitted 9-4-2001 could not be found in the file.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 4 and 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The examiner could not find the description in the specification for the claimed subject matter in claims 4 and 8.

4. The method of claim 1, wherein upon request of an idle sector as to service sector of the corresponding handoff mobile station from at least two or more of the handoff mobile stations, an idle sector is set according to the request of a handoff mobile station receiving the highest signal among said handoff mobile stations requested to be idle.

8. The method of claim 5, wherein upon request of an idle base station as to service sector of the corresponding handoff mobile station from at least two or more handoff mobile stations, an idle base station is set according to the

request of a handoff mobile station receiving the highest signal among said handoff mobile stations requested to be idle.

4. Claims 13 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13, line 10, it is not clear whether "transmitting to an idle state" should be --transitioning to an idle state--.

Claim 22, lines 1-2, "each switch that connects and disconnects a path" lacks a proper antecedent basis since neither claim 22 nor 21 recite that a plurality of switches is associated with the apparatus.

Allowable Subject Matter

5. Claims 1-3, 5-7, 9-12 and 14-21 are allowed.
6. Claims 13 and 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
7. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the feature of registering other sectors in an active set of the handoff mobile station as idle sectors upon request of a data service from the handoff mobile station, wherein idle sectors discontinue transmission of data traffic. With respect to claims 18, 19 and 21, the phrase "idle request symbol" is reasonably interpreted in light of specification to mean a signal which signifies an active sector that is requested to become idle.
